

**IBIS**

Improving Behaviour in Schools

**Examples of IBIS Packages**

**There are lots of ways that behaviour can either adversely or positively affect learning.**

**IBIS provide practical support to help those working in schools promote positive behaviour and foster success.**

**Examples of what IBIS would help you achieve:**

**Extend staff skills** in behaviour management through training and coaching

**Coach senior staff** in their own roles and skills (individually or as a group)

**Support for all staff in school throughout difficult times of change** (eg. amalgamation)

Help to **embed a new behaviour policy** throughout a whole school

Facilitate the **development of a constructive and positive ethos** in schools to encourage learning behaviour

**Raise staff morale** (eg. after a difficult Ofsted or when moving into Special Measures)
